Instructor: Vladimir Minin

Time: Tuesday and Thursday, 1:30 - 3:20 pm

Place: More Hall, room 225

Office Hours: by appointment (email: vminin@u.washington.edu)

Course Web Page: www.stat.washington.edu/vminin/Stat516/

Additional Reading

Prerequisites
I expect students to be familiar with multivariate analysis, linear algebra, differential equations, and probability theory. I also assume that students will be able to complete short programming assignments using any low or high level programming language (C, C++, Java, Perl, Matlab, R/S-Plus, SAS).

Grading
Grades will be assigned based on homework assignments (75%) and a final exam (25%).

Homework
I will assign 4-6 homework assignments. The due dates will be announced in class and posted on the class web page. Homework turned in late will receive 0 points.

Tests
There will be one final exam on Friday, December 14 from 2:30 to 4:20 pm.
