

POSITION ANNOUNCEMENT

Programming Specialist / Statistics Analyst (part-time; contract/hourly)

Location: Relationship Research Institute, Downtown Seattle Office

Posting Date: 11/01/2007; open until filled

Salary: Commensurate with education and experience

Shift: weekdays, weeknights, and weekends; flexible hours

The Relationship Research Institute is a non-profit organization dedicated to the scientific exploration and analysis of intimate relationships and was founded by Dr. John Gottman, Emeritus Professor at the University of Washington and Executive Director of the Relationship Research Institute. The mission of the RRI is to conduct high quality research and disseminate knowledge for understanding and building emotionally intelligent and sensitive family relationships.

SUMMARY: Working in direct collaboration with Dr. Gottman and other project directors, this individual will assist the RRI team of investigators in creating programs to facilitate a variety of statistical analyses; primarily working on the Mathematical Model of Marriage.

FUNCTIONS AND RESPONSIBILITIES:

This individual will run the Mathematical Model of Marriage on data collected from couple participants in various research studies. This person will also generate summary reports as needed from our physiological data collection program, as well as reports from our observational coding program.

REQUIREMENTS:

Experience in software programming. A math and statistics background, interest in psychology, and an ability to translate complex programming concepts into easily understood or accessible language for the non-programming individual. Must work ability to work well in a team environment and work with individuals from diverse backgrounds. Experience working in windows based programming and SPSS Statistical Software Applications.

Application Instructions:

Please submit a cover letter and Curriculum Vita to: Relationship Research Institute, Attn: Dan Yoshimoto, Ph.D., 1730 Minor Avenue, Suite 960, Seattle, WA 98101. You may also email your cover letter and CV to dany@gottmanresearch.com
