

Position Description – Assistant Professor 2009-2010

The Department of Statistics at UC Davis invites applications for a *tenure-track Assistant Professor* position from qualified individuals with a Ph.D. in Statistics or a related field. Applicants are expected to have active research interests in statistics for large and complex data. Candidates with demonstrated interests in scientific applications involving the analysis of shapes and manifolds, bio-medical imaging, genomics, or data visualization, are especially encouraged to apply.

The Department hosts graduate programs in Statistics and in Biostatistics (for further information see <http://www.stat.ucdavis.edu/>). UC Davis offers a broad range of opportunities for collaborations involving large and complex data, including a Medical School, and programs in, for instance, Atmospheric Sciences, Genetics/Bioinformatics, Computer Science, Geology and Psychology.

The successful candidate will be expected to teach at both the undergraduate and graduate levels. The position will begin 7/1/2010.

To apply, please go to <http://www.stat.ucdavis.edu/employment/academic/>. Review of applications will begin on Dec. 1, 2009, and will continue until the position is filled. UC Davis is an affirmative action/equal employment opportunity employer and is dedicated to recruiting a diverse faculty community. We welcome all qualified applicants to apply, including women, minorities, individuals with disabilities and veterans.
