

POSTDOCTORAL RESEARCH ASSISTANT

The Department of Biostatistics and Computational Biology at the University of Rochester is seeking a Postdoctoral Research Assistant. The position will involve methodological research in the area of nonparametric [smoothing](#) regression analysis. Successful candidates are expected to be familiar with R programming. Python programming is a plus.

To apply, send a cover letter, CV and three reference letters to:

*Dr. Wan Tang
University of Rochester
Department of Biostatistics and Computational Biology
601 Elmwood Avenue, Box 630
Rochester, NY 14642*

or by e-mail to wan_tang@urmc.rochester.edu. Inquiries may also be directed to this e-mail address.
