

### **Postdoctoral Fellow Position in Biomathematics**

Department of Biostatistics and Computational Biology at University of Rochester School of Medicine & Dentistry has an immediate opening for one postdoctoral fellow position in biomathematical modeling. The potential candidates are expected to have a background in biomathematics, applied mathematics, biocomputing or engineering (Ph.D. required). Preference will be given to the candidate with strong background and experience in immunology, virology or other biomedical sciences. The candidate is expected to collaborate with immunologists and virologists to develop mathematical models for the investigation of immune response to viral infections. Good communication skills are required. The scientific environment is conducive to professional development. For an experienced candidate, it is possible to be appointed as a research faculty. Please send CV, three references and other supporting materials to

Dr. Hulin Wu,

C/O: Ms. Debra Perno (Job Code: Math)

Department of Biostatistics and Computational Biology,  
University of Rochester School of Medicine and Dentistry,  
601 Elmwood Avenue, Box 630,  
Rochester, NY 14642.
