Biostatistician Position  
Group Health Research Institute  
Seattle, WA

Group Health Research Institute’s (GHRI’s) Biostatistics Unit is seeking an MS or PhD entry-, mid- or senior-level biostatistician interested in applying modern statistical methods to data from both observational studies and clinical trials in an interdisciplinary academic research environment. The position will involve collaboration with investigators across a wide range of areas such as cancer prevention, pharmacoepidemiology, immunizations, behavioral medicine, women’s health, health informatics, mental health, and aging.

GHRI ([http://www.grouphealthresearch.org/](http://www.grouphealthresearch.org/)) is an internationally recognized research organization that conducts epidemiologic, health services, and clinical research to improve health and health care. The Institute’s research is primarily funded through federal grants and contracts that total more than $45 million annually. GHRI employs 34 doctorate-level investigators (including 4 biostatistician investigators), 8 MS biostatisticians, and over 200 staff members.

Applicants must have an MS or PhD in Biostatistics or Statistics. Excellent oral and written communication skills and a strong interest in interdisciplinary collaboration are required. Experience with statistical consultation, regression models, analysis of correlated data, survival analysis, clinical trials designs, and/or missing data is preferred and knowledge of SAS, Stata, and/or R is desirable.

For full consideration, please submit a letter of interest and a resume (or CV) to the attention of Annie Shaffer (shaffer.ax@ghc.org). Questions about the position can be directed to the Search Chair, Susan Shortreed, PhD (shortreed.s@ghc.org). Review of applications will begin immediately. Salary and title commensurate with training and experience. This position is contingent upon the Research Institute’s continued funding from both internal and external sources.

Group Health is an Equal Opportunity Employer committed to a diverse and inclusive workforce. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability, protected veteran status, marital status, age, sexual orientation, gender identity or expression, or any other legally protected status.
