Lecturer Position in Statistics

The Department of Statistical Sciences at the University of Toronto invites applications for a teaching-stream position at the rank of Lecturer. The position start date is July 1, 2015.

Applicants must have earned a PhD in Statistics, biostatistics, or related discipline by date of appointment; have significant experience in teaching a variety of courses in statistics at the University level; and a record of excellence in teaching; other experience in scholarship and, in particular, statistical collaboration or consulting, is considered an asset. Salary will be commensurate with qualifications and experience.

Appointments at the rank of Lecturer may be renewed annually to a maximum of five years. In the fifth year of service, Lecturers shall be reviewed and a recommendation made with respect to promotion to the rank of Senior Lecturer.

All qualified candidates are invited to apply online by going to http://www.hrandedequity.utoronto.ca/careers/co.htm. Applications should include a cover letter, curriculum vitae, teaching dossier (including a statement of teaching philosophy).

Please arrange for three reference letters, including at least one which primarily addresses the candidates teaching. Applicants should ask the referees to send the letters on official letterhead directly to the Department via email to angela.fleury@utoronto.ca.
Submission guidelines can be found at: http://uoft.me/how-to-apply. We recommend combining attached documents into one or two files in PDF/MS Word files.

All application materials, including the letters of reference, must be received by the November 15, 2014 closing date. Questions about this position may be addressed to angela.fleury@utoronto.ca.

As one of the leading departments in North America our mandate is to serve as a centre of excellence for statistical research and education, across the campus, nationally and internationally. With an outstanding complement of 22 award winning faculty, our key strengths are the quality of our research, the abilities or our undergraduate and graduate students, our close ties to biostatistics in the Dalla Lana School of Public Health, and the broad reach of statistical science across other disciplines.

For more information on the Department of Statistical Sciences, please visit our website at: www.utstat.utoronto.ca

The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from visible minority group members, women, Aboriginal persons, persons with disabilities, members of sexual minority groups, and others who may contribute to the further diversification of ideas.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.
