The Department of Statistics (http://statistics.gmu.edu), George Mason University (GMU), Fairfax, Virginia, is seeking candidates for an open rank tenure-track or tenured position.

The candidate must have a Ph.D. in Statistics or closely related field, be prepared to conduct independent and collaborative research, and teach and mentor at the advanced graduate level. At senior ranks, the candidates must have a demonstrated record of research and funding. Research areas of the Department include applied probability, biostatistics, data analytics, federal statistics, high-dimensional data analysis, statistical computing, and theoretical statistics. Special consideration will be given to candidates in the area of data analytics. The Department offers M.S. and Ph.D. degrees in Statistical Science, M.S. in Biostatistics, and a concentration in the M.S. in Data Analytics Engineering. The Department is located in the Volgenau School of Engineering, which occupies a new building on our rapidly growing campus in the high-tech corridor of northern Virginia, 30 minutes from downtown Washington and two international airports. GMU is a growing research university of over 33,000 students and offers competitive salaries and faculty rental housing on campus.

For full consideration, applicants must apply online at https://jobs.gmu.edu/postings/search for position F004Az; complete online faculty application; and upload a cover letter, CV, teaching statement, research statement, transcript, and the names and contact information for three references. Please upload your research statement using the link for ‘Other Docs’. The review of applications will begin January 29, 2016, and continue until the position is filled.

George Mason University is an equal opportunity employer encouraging diversity.
