Department of Statistics
Teaching Assistant Professor Positions, Non-tenure Track

The Department of Statistics at North Carolina State University seeks to hire two non-tenure track teaching assistant professors to begin in August 2015.

The Department is launching a new online master's program, which is scheduled to begin in July 2015. In order to meet the increased teaching demands, the Department is seeking to hire two teaching assistant professors to plan, organize and teach undergraduate and graduate courses. Courses could either be taught online or face to face and will vary depending on the needs of the Department.

The initial appointment will be for one year and will be on a 12-month contract (August 16, 2015 – August 15, 2016). Based on performance, the positions are eligible for subsequent reappointment.

To apply, please visit http://www.stat.ncsu.edu/information/employment.php.

The Department provides a dynamic environment for teaching, research and collaborations across disciplines. Inclusiveness and diversity are academic imperatives and thus are university goals. We are particularly interested in candidates who have experience working with students from diverse backgrounds and a demonstrated commitment to improving access to higher education for students from underrepresented groups. The Department's location in the Research Triangle provides rich opportunities for interactions with industry; other universities, including Duke University and the University of North Carolina at Chapel Hill; and government agencies. Faculty enjoy collaborations with medical researchers at Duke, environmental scientists at the EPA research facility, pharmaceutical researchers at Glaxo-SmithKline, and software developers at SAS Institute, among many others. The Department is also a founding cooperator of the National Institute of Statistical Sciences (NISS) and the NSF-funded Statistical and Applied Mathematical Sciences Institute (SAMSI), both located nearby in Research Triangle Park.

All applicants must have a Ph.D. in Statistics, Biostatistics or relevant field by the time of employment. Processing of applications will begin immediately and will continue until the positions are filled. Questions about the position may be directed to the Search Committee Chair, Dr. Webster West (teach_stat_search@stat.ncsu.edu).

NCSU is an equal opportunity and affirmative action employer. In addition, NC State University welcomes all persons without regard to sexual orientation or genetic information.
