Open Position: Assistant Professor of Statistics (Joint appointment with Biological Sciences)

The University of South Carolina Department of Statistics, joint with the Department of Biological Sciences, is advertising for an Assistant Professor position to begin August 2016. The research focus of the position is bioinformatics and cancer research. Successful candidates must demonstrate the ability to conduct research using bioinformatic modeling, analysis, or computational approaches to address fundamental questions in cancer research. Candidates will hold a joint appointment in the Department of Biology and will also be expected to collaborate with USC's Center for Colon Cancer Research, funded through NIH Center for Biomedical Research Excellence (COBRE) grants since 2002.

Please see the position advertisement below.

Challenge the conventional. Create the exceptional. No Limits.
