Assistant Professor, Teaching Stream – Statistical Sciences

The Department of Statistical Sciences at the University of Toronto invites applications for a full-time continuing teaching-stream position at the rank of Assistant Professor, Teaching Stream. The position start date is July 1, 2016.

Applicants must have earned a Postgraduate Degree in Data Science, Statistics, Biostatistics, or related discipline by date of appointment; have significant experience in teaching a variety of courses in statistics at the University level; and a record of excellence in teaching including a commitment to excellence in graduate and undergraduate education; a PhD, other experience in scholarship, in scientific collaboration or in pedagogy are all considered assets. Salary will be commensurate with qualifications and experience.

Successful candidates must have strong endorsements by referees of both excellent teaching and evidence of commitment to pedagogical enquiry and teaching innovation.

All qualified candidates are invited to apply online by going to MathJobs [http://www.mathjobs.org/jobs/jobs/[7766]]. Applications should include a cover letter, curriculum vitae, and teaching dossier, including a statement of teaching philosophy.

Applicants should ask three referees to send reference letters on official letterhead directly to the Department via email to angela.fleury@utoronto.ca.

All application materials, including the letters of reference, must be received by November 27, 2015. Questions about this position may be addressed to angela.fleury@utoronto.ca.

As one of the leading departments in North America our mandate is to serve as a centre of excellence for statistical sciences research and education, across the campus, nationally and internationally. With an outstanding complement of 22 award winning faculty, our key strengths are the quality of our research, the abilities or our undergraduate and graduate students, our close ties to biostatistics in the Dalla Lana School of Public Health, and the broad reach of statistical science across other disciplines.

For more information on the Department of Statistical Sciences, please visit our website at: www.utstat.utoronto.ca

The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from visible minority group members, women, Aboriginal persons, persons with disabilities, members of sexual minority groups, and others who may contribute to the further diversification of ideas.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.
