Assistant Professor, Tenure-Stream, Actuarial Science
or
Assistant or Associate Professor, Statistical/Mathematical Finance

The University of Toronto invites applications for two tenure-stream appointments in Statistics or Actuarial Science, one with the undergraduate Department of Statistical Sciences, University of Toronto St. George (UTSG), and one with the undergraduate Department of Computer and Mathematical Sciences, University of Toronto Scarborough (UTSC). Both positions are affiliated with the tri-campus graduate Department of Statistical Sciences. All appointments will commence July 1, 2016.

* For the UTSG position we seek candidates at the interface of Actuarial Science and Statistical/Mathematical Finance. The appointment will be at the rank of Assistant Professor.

* For the UTSC position we seek candidates in Statistical Finance, but candidates in other areas of Statistics may also be considered. The appointment will be at the rank of Assistant Professor or Associate Professor.

Applicants must hold a Ph.D. in Statistics or a closely related field by the time of the appointment or shortly thereafter, must provide evidence of excellence in teaching, and demonstrate excellence in research with a record of sustained contributions at the highest international level. Evidence for research excellence will comprise publications in top ranked and field-relevant academic journals, presentations at top conferences, research awards and accolades, and exceptional endorsements by referees of top international stature. Evidence for excellence in teaching will comprise positive teaching accomplishments and accolades, strong letters of reference and teaching evaluations, and a teaching dossier.

The University of Toronto is an international leader in statistical and actuarial science research and education. We seek exceptional candidates who would complement our existing strengths. Successful candidates are expected to pursue independent, innovative research at the highest international level.

* The successful candidate for the UTSG position will have the ability to teach Actuarial Science and Statistical Finance at the undergraduate level, and Statistical Finance at the graduate level. They will be expected to supervise students in the Department’s doctoral field in Actuarial Science and Mathematical Finance and be active in teaching and supervision in our Masters of Financial Insurance.

* The successful candidate for the UTSC position will have a strong commitment to undergraduate teaching in Statistics. They will be expected to participate actively in the Graduate Department of Statistical Sciences, teaching graduate courses in Statistics and supervising graduate students at all levels.

Salary (and rank at UTSC) will be commensurate with qualifications and experience.
Application material for the positions should be submitted online through MathJobs https://www.mathjobs.org/jobs/jobs/7767. It should include the candidate's curriculum vitae, a list of publications, a research statement, a teaching dossier, the AMS Standard Cover Sheet, and at least four letters of reference sent directly by the writers, including at least one primarily addressing the candidate's teaching. To receive full consideration, application material should be received by November 27, 2015.

For more information, please see http://www.utstat.toronto.edu/wordpress/ and http://www.utsc.utoronto.ca/cms/.

The University of Toronto offers the opportunity to teach, conduct research, and live in one of the most diverse metropolitan areas in the world. The University of Toronto is strongly committed to diversity within its community and especially welcomes applicants from visible minority group members, women, Aboriginals, persons with disabilities, members of sexual minority groups, and others who may contribute to the further diversification of ideas.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.
