The Division of Biostatistics in the College of Public Health at The Ohio State University invites applications for a clinical track Associate/Assistant Professor level faculty position to begin in autumn semester 2016.

We seek outstanding individuals with a PhD in Biostatistics or Statistics and a proven record of exceptional teaching. Strong candidates will also have demonstrated interest in collaborative or methodological research and advising students. All areas of statistical expertise will be considered. The successful candidate is expected to teach about five semester (graduate or undergraduate) courses during the academic year and advise masters (MS, MPH) students. Opportunities for summer support through collaborative research projects and additional teaching exist. Clinical track appointments are on long-term, renewable contracts and are eligible for promotion. Rules that govern such appointments are given at http://trustees.osu.edu/university/facultyrules

The Division of Biostatistics and the College of Public Health are experiencing a period of expansion. The Division of Biostatistics currently consists of 8 full time faculty members who are engaged in funded methodological and interdisciplinary research as well as teaching graduate and undergraduate students. Faculty collaborate with researchers from across the largest campus in the United States, including those from the Colleges of Medicine, Pharmacy, Nursing, Dentistry, Optometry and Veterinary Medicine. Collaborations are also ongoing with many institutes and centers on the OSU campus including the James Comprehensive Cancer Center, the Mathematical Biosciences Institute, the Institute for Behavioral Medicine Research, the Nisonger Center, the Department of Biomedical Informatics, the Center for Biostatistics, as well as with Nationwide Children’s Hospital located in downtown Columbus. The faculty co-administers and participates in an Interdisciplinary PhD program in Biostatistics with the Department of Statistics. The Division administers the MS and MPH programs that specialize in Biostatistics and participates in the teaching of basic Biostatistics courses to various graduate programs offered by the college and the new, rapidly growing BS program in public Health. Further information about the Division and faculty may be found at http://cph.osu.edu/bio.

While we are seeking experienced teachers, rank and salary will be determined by the candidate’s credentials. The Ohio State University is committed to establishing a culturally and intellectually diverse environment, encouraging all members of our learning community to reach their full potential. We are responsive to dual-career families and strongly promote work-life balance to support our community members through a suite of institutionalized policies. We are an NSF Advance Institution and a member of the Ohio/Western Pennsylvania/West Virginia Higher Education Recruitment Consortium.

All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, or protected veteran status.

Please send a letter of application along with your teaching statement, CV, and contact information for three references. Applications will be considered as they arrive. At least one of the references should be able to provide an evaluation of candidate’s teaching. Materials in electronic format (preferred) should be emailed to biostatssearch@cph.osu.edu with the subject header: Clinical-Track Faculty in Biostatistics. Materials in paper format may be sent to Chair, Search Committee (Clinical Track), Division of Biostatistics, College of Public Health, The Ohio State University, 204 Cunz Hall, 1841 Neil Avenue, Columbus OH 43210-1351.
