The Data Sciences and Operations (DSO) department (previously known as IOM) in the Marshall School of Business invites applications for a full-time Postdoctoral Research Associate position.

USC’s Marshall School of Business, Data Sciences and Operations is seeking a Postdoctoral Research Associate in Statistics. This is a fixed-term, one-year position with the possibility of renewal.

The Postdoctoral Research Associate will assist Dr. Yingying Fan, Associate Professor of Data Sciences and Operations Department, with research on statistical methodology and theory. The position is funded by Federal research grants and requires no teaching.

Responsibilities include developing new statistical methods on areas including high-dimensional statistical inference, big data problems, functional data analysis, and modern classification for the analysis of massive data, as well as financial econometrics.

Interested candidates should apply at the USC job site: [http://jobs.usc.edu/postings/52390](http://jobs.usc.edu/postings/52390)
