Job Opening – NC State Assistant/Associate/Full Professor in Public Science, College of Sciences

As part of the Chancellor's Faculty Excellence Program, NC State University seeks candidates for a professor (open rank, tenure-track) in the College of Sciences to join the Leadership in Public Science cluster hire. The Chancellor's Faculty Excellence Program (go.ncsu.edu/faculty-clusters) is bringing the best and brightest minds to join NC State University's interdisciplinary efforts to solve some of the globe's most significant problems. The aims of the cluster are to conduct research that directly engages the public in science and to study the success of public participation in science, particularly in informal educational settings. For this position, we seek a scientist in a research area represented by the College of Sciences (biology, chemistry, marine sciences, earth sciences, atmospheric sciences, mathematics, astronomy, physics, and statistics) who has an internationally recognized research program and connects with non-technical audiences by working with citizen scientists, engaging in community-based research, and/or by involving new, diverse audiences in the process and outcomes of science.
