Kennesaw State University is now accepting applications for a nine-month, tenure-track Assistant Professor faculty position in the Department of Statistics and Analytical Sciences which begins August 1, 2017. Candidates should possess expertise in Applied Statistics including SAS programming. Responsibilities will include teaching, scholarship, and service. An earned doctorate in statistics, biostatistics or a closely related field, or the foreign equivalent is required.

The successful candidate would be expected to teach courses in Applied Statistics at the undergraduate and graduate levels. The successful candidate would also be expected to engage in scholarly research, external grant funding and applied consulting project-based work. Participation in service activities within the department and University is also an expectation.

Applications, including a letter of application, current curriculum vitae, unofficial academic transcripts (official transcripts due upon hire), and a list of names and contact information of three references, should be submitted online. For a full description of this position or to apply for the position, go to https://facultyjobs.kennesaw.edu/postings/3320.

Review of applications will start immediately and will continue until the position is filled. For full consideration, completed applications should be submitted by November 18, 2016. Please contact Dr. Nicole Ferguson, chair of the search committee, afergu10@kennesaw.edu, with questions.

About Kennesaw State University
For more than 50 years, Kennesaw State University has been known for its entrepreneurial spirit and sense of community. Offering campuses in Marietta and Kennesaw, the university is located just north of Atlanta and combines a suburban setting with access to one of the country’s most dynamic cities. As Georgia’s third-largest university, Kennesaw State offers more than 100 undergraduate and graduate
degrees, including a growing doctoral program. Designated by the Board of Regents of the University System of Georgia as a comprehensive university, Kennesaw State is committed to becoming a world-class academic institution positioned to broaden its academic and research missions and expand its scope on a local, regional and national level.

About the Department of Statistics and Analytical Sciences
The Department of Statistics and Analytical Sciences supports the new Ph.D. program in Analytics and Data Science, the nationally recognized Masters of Science in Applied Statistics as well as the undergraduate Minor in Applied Statistics and Data Analysis. The faculty hold terminal degrees in Statistics, Epidemiology, Biostatistics, Decision Sciences, and Industrial Engineering and embody a highly interdisciplinary culture and approach to applied statistics. The Department is housed within the College of Science and Mathematics, which also houses the Department of Chemistry and Biochemistry; Department of Ecology, Evolution, and Organismal Biology; Department of Mathematics; Department of Molecular and Cellular Biology; and Department of Physics.

Kennesaw State University, a member of the University System of Georgia, is an Equal Opportunity/Affirmative Action employer and does not discriminate on the basis of age, color, disability, national origin, race, religion, sex, sexual orientation, and/or veteran status. Georgia is an Open Records state.
