The Biostatistics and Bioinformatics Branch (BBB) is an intramural research program within the Division of Intramural Population Health Research (DIPHR) at the Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD), National Institutes of Health. The Division’s mission is to conduct original research focusing on human reproduction and development, pregnancy, and child and adolescent health. Branch members conduct independent methodological research relevant to the design and analysis of epidemiological, behavioral and intervention studies. Specific research interests of the Branch members include: longitudinal data analysis, prediction modelling, the analysis of biomarker data, methods for diagnostic tests and measurement agreement, risk modeling, Bayesian methods, and survival analysis. Much of the statistical research is motivated by collaborative research with DIPHR investigators. Postdoctoral fellows will have the opportunity to develop an exciting statistical research program related to statistical problems encountered in DIPHR scientific studies. They will also have the opportunity to collaborate with DIPHR investigators on important studies. Candidates eligible to work in the USA and with an earned doctoral degree in statistics or biostatistics within the past five years are invited to apply. We anticipate multiple positions and will give preference to candidates with research experience on applied problems and with strong communication skills. Stipend is competitive and commensurate with training and relevant research experience.

Applicants should send: 1) a curriculum vitae; 2) official transcripts for undergraduate and graduate degrees; 3) a statement of research interests to be pursued during training; and 4) three letters of reference to:

Dr. Danping Liu  
Investigator, Chair of Fellow Recruitment Committee  
Biostatistics and Bioinformatics Branch  
Division of Intramural Population Health Research  
Eunice Kennedy Shriver National Institute of Child Health and Human Development  
National Institutes of Health  
6710B Rockledge Dr., MSC 7004  
Bethesda, MD 20892  
Tel: 301-443-7041  
Email: danping.liu@nih.gov

Further information about the Biostatistics and Bioinformatics Branch and Division may be found at: https://www.nichd.nih.gov/about/org/diphr/bbb/Pages/default.aspx. These positions will remain open until qualified applicants are recruited.

HHS and NIH are Equal Opportunity Employers.
