The Department of Biostatistics and Epidemiology in the Medical College of Georgia at the Augusta University (AU) invites applications for a tenure track faculty position in Biostatistics at the Assistant or Associate level. Applicants must have a Ph.D. in biostatistics or a closely related field. Experience and demonstrated interest in computational biology, data analytics, epigenetics or genomics is highly desirable. Interest and ability in active collaboration with other investigators in biomedical and public health research within and outside of AU will be an important factor in the selection of candidates, as will doctoral teaching and mentoring experience. Candidates must have a nationally recognized record of innovative and leading-edge methodological research, genuine interest in interdisciplinary collaborations in translational research, successful track record of extramural funding support, strong ability and interest in teaching and mentoring students, and demonstrated leadership potential.

The Department of Biostatistics and Epidemiology at AU offers pre- and post-doctoral training programs in Biostatistics, and a Masters and a Certificate program in Clinical and Translational Science. Immediate future plans include developing graduate programs in Data Analytics and Epidemiology. The new faculty members will join a highly interdisciplinary faculty and will play an integral role in the ongoing expansion of research and education at AU. The academic departments, and centers and institutes such as the Center for Biotechnology and Genomic Medicine, Cyber Institute, Georgia Cancer Center, Georgia Prevention Institute, Institute of Public and Preventive Health and Sickle Cell Center provide rich opportunities for interdisciplinary research.

Interested applicants should send curriculum vitae, a brief statement of current and planned research, and names and contact information of at least three references to:
