Thank you for considering University of Massachusetts Amherst in your search.

About University of Massachusetts Amherst:

The University of Massachusetts Amherst is one of the major public research universities in America. Nestled in idyllic Amherst, Massachusetts, the campus is consistently ranked among the top public research universities in the nation, and offers a rich cultural environment in a rural setting close to major urban centers.

Job Description:

The Biostatistics & Epidemiology Department in the School of Public Health and Health Sciences (SPHHS), is looking for a post-doctoral researcher in biostatistics to work with longitudinal repeated measures on observational epidemiological data on diet. Study diet environmental exposures, and growth and other developmental outcomes. Freedom to explore multivariate outcome methods, causal inference methods, environmental mixture methods with leading researchers in these fields, as well as access to a national collaboration of similar studies. The post-doc will join the Kleinman Research Lab in the Department of Biostatistics and Epidemiology, that currently includes 3 post-docs and graduate students. In addition:

- Develop and implement new statistical methodologies;
- Write theoretical and applied research papers that demonstrate the utility and application of these models;
- Attend weekly lab meetings, occasionally present research in progress reports;
- Supervise and collaborate with graduate students on their research.

Requirements:

- Doctoral degree received or expected in biostatistics, statistics, or related field with interests in clustered and/or longitudinal data
- Good communication skills as evidenced by collaborative work
- Doctoral Degree must be earned by time of appointment.

Additional Information:

The University of Massachusetts Amherst is an Affirmative Action/Equal Opportunity Employer of women, minorities, protected veterans, and individuals with disabilities and encourages applications from these and other protected group members.

Application Instructions:

Applicants should apply by the priority deadline of October 15, 2017 in order to ensure consideration and will remain open until filled. To apply provide letter of application, resume and contact information for three professional references.
