Position Announcement
Assistant/Associate Professor of Applied Statistics
Lundquist College of Business
University of Oregon

Position
The Department of Operations and Business Analytics in the Lundquist College of Business at the University of Oregon is seeking to fill one or more tenure-track faculty positions at the Assistant/Associate Professor level in Applied Statistics. Employment begins September 16, 2017.

We are seeking (a) candidate(s) who will fully contribute to the intellectual activities of the department and provide high quality teaching in the areas of Applied Statistics and Business Analytics at the undergraduate and graduate levels. Research and teaching interests should be in the areas of econometrics, data mining, forecasting, business analytics, and multivariate statistical methodologies. It would also be highly desirable for the applicant to have an interest in either Operations Management or Management Information Systems. Promotion and tenure depend on the quality of research and teaching.

In addition to its emphasis on research, the Lundquist College targets the development of certain skills in our students and faculty, especially the ability to pursue cross-disciplinary initiatives. Therefore, the ability to engage with one or more interdisciplinary signature centers in the college will be a plus. The successful candidate will have the ability to work effectively with faculty, staff, and students from a variety of diverse backgrounds.

Rank and Salary
Assistant/Associate Professor; Competitive Salary

Qualifications
Minimum Qualifications:
- Assistant Professor level: Candidates must have a completed or nearly completed Ph.D. degree in Applied Statistics or related discipline; demonstrated potential for teaching and research excellence; documented teaching experience
- Senior Assistant/Associate Professor level: Ph.D. degree in Statistics or related area such as econometrics; a record of scholarly accomplishment and demonstrated teaching competence.

Professional Competencies:
- Requires background in statistics and business analytics.
- Ability to teach applied statistics and business analytics courses at undergraduate and graduate levels
- Ability to work effectively with students, faculty, and staff from diverse backgrounds

Preferred Qualifications:
- Experience teaching at both undergraduate and graduate level
Commitment to research in statistics/business analytics publishable in top tier journals

To Apply
Submit letter of interest, curriculum vitae, statement of teaching interests, evidence of teaching performance, and names of 3 references to https://academicjobsonline.org/ajo/jobs/7467. To ensure full consideration, materials must be received by November 15, 2016. The position will remain open until filled.
