Log-Linear Modeling
CSSS 536
Professor: Mark S. Handcock

Homework 5
Due Thursday, May 13, 2004

1) Exercise 13 from Chapter 5 of S. The data can be read from the internet with the command:

```r
birthday <- read.csv("http://www.stat.washington.edu/handcock/536/Data/birthday.csv")
```

2) Exercise 15 from Chapter 5 of S.

As background, read the discussion in the text starting on P. 145. The data can be read from the internet with the command:

```r
```

3) Exercise 23 from Chapter 5 of S. We considered this situation in Homework 3. As background, read the discussion in the text starting on P. 45. The data can be read from the internet with the command:

```r
michiganacc <- read.csv("http://www.stat.washington.edu/handcock/536/Data/michiganacc.csv")
```
