IDA Staff at a Glance

The Institute for Defense Analyses (IDA) is a not-for-profit corporation that operates three Federally Funded Research Centers (FFRDCs), two serving the Department of Defense and one serving the Office of Science and Technology Policy in the Executive Office of the President. The IDA Centers provide objective analyses of national security issues, particularly those requiring scientific and technical expertise, and conduct related research on other national challenges. Staff at IDA’s Studies and Analyses Center is located in Alexandria, Virginia and comprised of eight research divisions:

• Cost Analysis and Research Division
• Intelligence Analyses Division
• Operational Evaluation Division
• Science and Technology Division

The Institute for Defense Analyses - Science and Technology Policy Institute is located in Washington, DC and assists the Executive Branch of the U.S. government in formulating federal S&T policy by providing high-quality, objective, analytical support to inform policymakers.

Overview of Our Associate Program

IDA is seeking applicants with statistical expertise for summer associate positions. The IDA Summer Associate Program provides statisticians with a unique opportunity to use their quantitative and analytic skills to work on challenging real-world national security issues. Positions are available with a variety of focuses. Projects from past years have included functional data analysis, Bayesian approaches to reliability estimation, and statistics in science policy. The Institute for Defense Analyses (IDA) is a not-for-profit corporation that operates Federally Funded Research and Development Centers (FFRDCs).

We seek highly qualified students with strong academic backgrounds. Our preference for the program is graduate students, but we will consider undergraduates who are rising seniors. In either case, students must be returning to an academic institution in the fall to continue their educational pursuits. We do not use GPA as a screening tool, but we have noted that in previous years, more than 3/4 of our interns have had undergraduate GPAs above 3.3.

Applicants are required to submit a resume and transcripts.

Applicants who are selected will be subject to a security investigation and must meet eligibility requirements for access to classified information. U.S. citizenship is required.

IDA is an equal opportunity employer committed to providing a working environment that is free from discrimination on the basis of race, color, religion, sex (including pregnancy and gender identity), sexual orientation, national origin, age, disability, status as a protected veteran, marital status, genetic characteristic or any other legally protected condition or characteristic.

Accepting applications October 1, 2017 – January 6, 2018
