UNIVERSITY OF MICHIGAN-DEARBORN

Tenure-Track Position in Statistics

The Department of Mathematics and Statistics at the University of Michigan-Dearborn invites applications for a tenure-track Assistant Professor position in Statistics beginning September 1, 2018. The position requires a Ph.D. in statistics, biostatistics, data science or related field. Candidates should have a strong commitment to both teaching undergraduate and graduate statistics courses and research in statistics. A positive attribute is an interest in involving students in research projects. The standard teaching load is 18 credit hours per year with an occasional late afternoon or evening course. However, during the first three years the teaching load is reduced to 15 credit hours to allow more time for research. Promotion and tenure is based upon a candidate’s performance in teaching, research and service. A cover letter, curriculum vita, at least three letters of recommendation, graduate transcripts and statements on your teaching philosophy and research program should be submitted to https://apply.interfolio.com/44941. At least one of the letters of recommendation should address the candidates teaching. Any teaching evaluations that you might have would be helpful. Although preference will be given to complete applications submitted by November 30, 2017, applications will be considered until the position is filled. Questions can be directed to casl-stat-search@umich.edu. Members of the search committee will be at the Joint Mathematics Meetings in San Diego, January 11-13, 2018 to interview candidates.

Located in the metropolitan Detroit area, the University of Michigan-Dearborn is a public university offering over 90 academic majors, 28 master programs and 3 doctoral programs in 4 different colleges to over 9000 students. The Department of Mathematics and Statistics, part of the College of Arts, Sciences and Letters, offers BS and BA degrees in both Mathematics and Applied Statistics, an MS degree in Applied and Computational Mathematics, and minors in Mathematics, Applied Statistics and Computer and Computational Mathematics. For more information about the Department, please visit www.umdearborn.edu/math/.

The University of Michigan-Dearborn is an equal opportunity/affirmative action employer. The University of Michigan conducts background checks on all job candidates upon acceptance of a contingent offer and may use a third-party administrator to conduct background checks. Background checks will be performed in compliance with the Fair Credit Reporting Act.
