The Department of Biostatistics and Computational Biology at the Dana-Farber Cancer Institute seeks outstanding candidates for a position of Assistant or Associate Professor. Academic rank at Harvard Medical School is to be determined in accordance with the successful candidate’s experience and productivity.

The new faculty member is expected to be or become a leader in quantitative methods relevant in cancer clinical trials research, to work collaboratively with investigators in the Susan Smith Center for Women’s Cancers, and to pursue independent research. Candidates are expected to hold a doctoral degree, or strong doctoral record, in statistics, biostatistics, or allied fields. The new faculty is expected to participate in courses/workshops for medical students and fellows taught in the School of Medicine and supervise postdoctoral fellows and graduate students.

Applicants should send a letter of application, including a statement of current and future research interests, curriculum vitae, sample publications, and the names of four referees to the email address below. Applicants should ask their four referees to write independently to this address. Consideration of an application will begin after the application package is complete. Applications received after January 15 cannot be guaranteed consideration.
