MEMORIAL SLOAN KETTERING CANCER CENTER

Masters Level Biostatisticians

Memorial Sloan Kettering Cancer Center has multiple positions available for Masters level biostatisticians. The successful applicant will engage in a wide variety of collaborative projects with medical investigators and statisticians. Duties include: helping researchers design studies, managing data, statistical programming and analysis, and interpretation and reporting of results. Projects involve the design, analysis and publication of clinical, laboratory or genomic research.

Interest/experience in any of the following areas will be strongly considered: clinical trials, EHR and other administrative data, patient reported outcomes, genomics. Qualifications include a Masters degree in biostatistics or statistics, excellent programming skills, proficiency in database manipulation, ability to work on multiple projects at the same time and excellent verbal and written communication skills.

Please email cover letter and CV to: EPIBIOSTATS@mskcc.org.

MSKCC is an equal opportunity and affirmative action employer committed to diversity and inclusion in all aspects of recruiting and employment. All qualified individuals are encouraged to apply.
