The University of Texas Health Science Center at Houston (UTHealth) School of Public Health is accepting applications, with a negotiable start date, to fill one Associate Professor (non-tenure track) faculty position in the Department of Biostatistics and Data Science housed inside the School of Public Health at University of Texas Health Science Center at Houston (UTHealth).

Position Duties: The successful candidate is expected to provide statistical support and perform quantitative research in related to various public health and biomedical fields. This position is also anticipated to bridge statisticians and biomedical investigators to build multidisciplinary collaboration programs. Demonstrated evidence of good communication and collaboration skills is essential. Previous collaborative experience in complex big data (e.g., imaging, text, EHR) is highly desirable.

Position Qualifications: A Ph.D. degree in biostatistics, statistics or related disciplines is required. Applicants must demonstrate experience working in a collaboration research environment in academia, industry or government. Preference will be given to the candidates with a strong collaboration experience on clinical, observational and basic biomedical science studies, including experience in study design, data analysis and drafting data analysis report. Strong statistical programming skills (including SAS, R, STAT etc.), excellent oral and written communication skills are required.

Salary Range: Competitive
