Senior Staff Biostatistician UCSF HDF Comprehensive Cancer Center Biostatistics Core

Description:

The UCSF Helen Diller Family Comprehensive Cancer Center (HDFCCC) Biostatistics Core at the University of California San Francisco (UCSF) is seeking a senior staff biostatistician candidate with the earliest possible starting date of September 23, 2019. The successful applicant will work directly under the HDFCCC Biostatistics Core faculty members and together they will serve as the principle research data analysts for the Cancer Center Biostatistics Core. Commensurate with experience, the successful applicant may also advise PI and other researchers on research design issues and the use of appropriate statistical methods.

Qualifications:

MS degree in Statistics, Biostatistics, or a related field and 3 to 5 years of experience, or equivalent experience / training; Proficient with SAS, STATA or R; experience with clinical trials and analyses of large cohort data, strong interpersonal, written/oral communication and organizational skills are desired.

Additional Information:

The UCSF Helen Diller Family Comprehensive Cancer Center (HDFCCC), or Cancer Center, combines basic science, clinical research, epidemiology/cancer control and patient care from throughout the University of California, San Francisco system.

UCSF is a premier medical sciences institution dedicated to promoting health worldwide through excellence in research, teaching and patient care. The School of Medicine is ranked #1 nationwide in NIH support, and UCSF is ranked annually as one of the top hospitals in the United States.

Information on resources for career development and work/life balance at UCSF can be found at https://ucnet.universityofcalifornia.edu/working-at-uc/index.html.

Please submit your application at the UCSF Campus Jobs Site (https://sjobs.brassring.com/TGnewUI/Search/Home/Home?partnerid=6495&siteid=5226#home): the open position can be founded via search with the Req number 53110BR.
